DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

This application has been reviewed by the examiner and meets all formal and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive support in the application disclosure as originally filed.

The primary reason for the allowance of the claims is the presence of limitations in the independent claim(s), which are not found in the prior art references. The examiner believes that the record of the prosecution as a whole makes clear his reasons for allowing a claim or claims. However, the examiner would like to point out one or more specific reasons and/or limitations that the prior art fails to disclose and/or make obvious. Hence, the prior art fails to disclose and/or make obvious a cutting tool comprising an annular disc having an axis of rotation and a plurality of cutting tools clamped on said annular disc, each cutting tool comprising: a blade having a front insert retaining portion and a rear body portion defining a front to rear longitudinal direction; the front insert retaining portion being provided with exactly two insert receiving pockets and one above the other and separated by a rearwardly extending recess, in a side view of the blade.

Specifically, the inclusion of the limitation " the two insert receiving pockets being formed on opposite sides of the blade with a first insert receiving pocket formed in a right side of the front insert retaining portion and a second insert receiving pocket

formed in a left side face of the front insert retaining portion," in the claims is absent from the prior art teachings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
